

Dr. Roberto Salgado 特別講演会

“Taking TILs into the next stage of daily practice and clinical trials: a proposal.”

講師

Dr. Roberto Salgado

Pathologist, GZA-ZNA Hospitals, Antwerp, Belgium
Peter Mac Callum Cancer Centre, Melbourne, Australia

Dr. Roberto Salgado is board certified in Anatomical Pathology since 2006 and works as an Anatomic Pathologist in Antwerp, Belgium. He's Honorary Research Associate at the Division of Research at the Peter Mac Callum Cancer Centre, Melbourne, Australia, as well as being part of the Tracer-X Consortium aiming at deciphering the clonal evolutionary pressures in lung and renal cancer (<http://tracex.co.uk/>). Currently, he's co-chairing with Sherene Loi, Peter Mac Callum Cancer Centre, and Carsten Denkert, University of Marburg, an International Consortium of Pathologists, namely the “International Immuno-Oncology Biomarkers Working Group” (www.tilsinbreastcancer.org) that develops guidelines for the assessment of Immuno-Oncological Biomarkers in cancer. This Working Group is a pathologist-driven group, with >700 pathologists on board, from 57 countries. This Working Group aims to develop guidelines and tools to help pathologists implement TILs in daily and clinical trial practices, publishing >10 manuscripts over the past 5 years. He's member of the WHO Editorial Board of the WHO Classification of Breast Tumours, 5th edition.

司会

河口 浩介 先生

Dr. Kosuke Kawaguchi

京都大学医学部附属病院 乳腺外科
Dept of Breast Surgery,
Kyoto University Hospital

片岡 竜貴 先生

Dr. Tatsuki R Kataoka

岩手医科大学 病理学講座機能病態学分野
Dept of Pathology,
Iwate Medical University Hospital

日程

2022年12月14日 (水)

時間

18:00-19:00 (JST)

会場

Zoom Webinar (事前登録制)
